## **GROWTH OF FAYETTEVILLE STATE NORMAL SCHOOL**

Nothing will show the desirability of selecting this institution in which to do either summer school work or to pursue the studies of the regular session, than to give the bare figures showing how the school has developed by leaps and bounds within the past few years. High school graduates are choosing Fayetteville State Normal in increasing numbers because they find here a comfortable and satisfying school life, and opportunities to develop themselves to the fullest in the art of teaching. The figures given below tell a remarkable story of the rise in the enrollment of Fayetteville State Normal to the point at which it is **THE LARGEST STUDENT BODY AMONG ALL THE COLLEGIATE INSTITUTIONS FOR NEGROES IN NORTH CAROLINA.**

## HISTORY

This institution was established by the State Board of Education, under an Act of the General Assembly of the state in 1877, for the training of teachers for the public schools of North Carolina.

Prof Robert Harris served as the first principal of the school for three years. At his death, Prof. Charles W. Chestnut became principal. He, also served for three years. In 1883 Dr. E. E. Smith became principal of the school. Except for a few years when he was on leave to serve as Minister to Liberia and as Adjutant during the war with Spain, he was at the head of the school until his retirement in 1933. In July 1933 J. W. Seabrook was made president.

In 1907 the school was moved from the city proper to a plot of land of 50 acres just beyond the city limits. This land was purchased by Dr. Smith as a permanent home for the school, and to prevent the erection of a new building on a city lot too small to permit future expansion.

## LOCATION

The institution is located on one of the many beautiful hills surrounding Fayetteville, not far from the shopping center of the thriving and historic city. Busses operate regularly between the school and the down town section.

## BUILDINGS

Fayetteville State Normal School is well housed. The Smith Administration Building is an imposing brick structure which contains the assembly hall, library, offices, classrooms, music rooms and laboratories; the Aycok Building adjoining it has a large hall for meetings and assemblies and a number of classrooms; Bickett Hall is a modernly equipped girl's dormitory; Joyner Hall, the other girl's dormitory was just completed two years ago. It is one of the finest dormitories in the state. The H. L. Cook Dining Hall is large enough to accommodate 400 people. It is of modern brick construction. The Laundry is equipped with modern steam and electrical appliances. The Newbold Training School is the training or practice school. It is of newest type brick construction with 16 classrooms, 6 practice rooms, an auditorium-gymnasium, cafeteria, teachers' rest room, library, and nurse's room. It is a handsome structure with ample playground space for the over 800 children who attend there. The President's residence and two teacher's cottages are comfortable edifices with modern conveniences. Vance Hall, the boy's dormitory, is a brick building with modern conveniences for the increasing number of boys who now attend the Normal School. In addition, there is a Mechanic Arts building, also of brick construction, and a dairy barn.

### SPECIAL NOTICE

Money for school expenses should be sent in the form of money order or cashier's check made payable to FAYETTEVILLE STATE NORMAL, and should be mailed to The President, State Normal School, Fayetteville, N. C. Do not send money by personal check. Also, do not send money for school expenses to the student, but to the school as directed above.

A school month consists of four weeks, a quarter of twelve weeks, and a school year of thirty-six weeks (nine months of four weeks each.)

The moderate rate charged the students for board, lodging, lights and fuel makes it necessary to require all students to work on the average of one hour a day. If for any reason a student desires to be excused from this duty work, he will be excused upon the payment of two dollars additional per month. If a student's work is not satisfactory he will be relieved of it and required to pay the two dollars additional.

### SELF-HELP OPPORTUNITIES

The same low rate of fees referred to above, plus the smallness of the appropriation from the legislature, prevent the Fayetteville State Normal School from offering scholarships or free tuition. There are a few positions given to students that grant a reduction in board and lodging. These positions are given only to students of proved ability, industry and character. If these students do not maintain high efficiency in their work, it is taken from them and given to others more deserving.

### WHAT TO BRING

Students furnish their own bedding, hence should bring with them quilts, blankets, sheets, spreads, pillows, pillowcases, and bureau scarfs.

To this list should be added rubber overshoes, raincoats, or umbrellas. Each article of clothing should be marked with the owner's name in indelible ink. If the prospective student owns a dictionary by all means he should bring it along.

### WHY GO TO FAYETTEVILLE STATE NORMAL?

1. Because in TWO YEARS a student can graduate with a Primary B or Grammar Grade B Certificate, the same certificate that one would get by spending THREE YEARS in a standard liberal arts college. This is due to the fact that Fayetteville State Normal is solely a teacher-training institution, under the direct control of the State Department. Those students that prefer law, medicine, theology, or teaching in the high school field, should go to liberal arts college. Fayetteville prepares teachers for the field in which most of the children are—the public elementary schools.

2. Because in North Carolina the pay of teachers in the elementary schools is on the same basis as that of teachers in the high schools the basis of training, efficiency, and experience, and NOT on the basis of the age of the children taught.

3. Because high school graduates, in rapidly increasing numbers, have been entering Fayetteville State Normal, to take advantage of the superior facilities, well-prepared faculty, and safe and comfortable living conditions existing in this well-known institution for the education of teachers. The enrollment jumped from 4 in 1922 (not counting high school students), to 371 in 1933-34.

4. Because at Fayetteville are found interesting and profitable student clubs, and inspiring religious organizations.

### ADMISSION REQUIREMENTS

Each applicant must be a graduate of an approved high school in North Carolina, or of a high school outside the State rated as equivalent, must be recommended by his or her former principal as a fit candidate for the teaching profession, and must present evidence of having satisfactorily completed at least fifteen (15) units of secondary work.

### ADVANCED STANDING

Students that have completed work elsewhere equivalent to that done in the First Year Class here are admitted into the Second Year. Cases in which the work is only approximately equivalent require the making up of deficiency or deficiencies in summer school. Usually, six summer schools are considered equal to the work of the First Year, provided the proper subjects have been taken.

Students from institutions of a type different from Fayetteville State Normal, such as liberal arts colleges, should attend summer

school at Fayetteville before entering the Second Year Class.

The entire Senior year must be spent in residence in order to obtain the normal diploma.

### GRADUATION REQUIREMENTS

Graduation is based upon the satisfactory completion of either the Primary or Grammar Grade Curriculum. The requirements are measured in terms of quarter-hours, ninety-six (96) quarter hours being the minimum requirement for graduation. A quarter-hour is a recitation to which full credit is given, occurring once a week for a period of twelve weeks. A minimum of sixteen (16) quarter-hours' credit should be earned each quarter.

IN ADDITION, BEFORE A STUDENT IS RECOMMENDED FOR GRADUATION, HIS RECORD MUST SHOW THAT MORE THAN ONE-HALF OF HIS CREDITS ARE ABOVE THE LOWEST PASSING GRADE, "D," AND THAT HIS MORAL CHARACTER WARRANTS THE INSTITUTION'S RECOMMENDING HIM TO THE STATE DEPARTMENT AS A SUITABLE PERSON TO RECEIVE A TEACHER'S CERTIFICATE.

Prerequisites to Practice Teaching are the passing successfully of all the work of the First Year Class, the evincing of reasonable mastery of the subjects of the elementary field, and the securing of a satisfactory score in a selected standard test. Students that do poorly in practice teaching may be stopped at any time so as to prevent injury to the children of the training school.

### DIPLOMA AND CERTIFICATE

Upon graduation, a Diploma will be awarded. Furthermore, upon the basis of graduation the State Department of Public Instruction will issue a Primary or Grammar Grade Certificate Class B, in accordance with the particular curriculum completed.

### RELIGIOUS ACTIVITIES

The religious activities of the school are nonsectarian. The daily chapel exercises consist of prayer, responsive Scripture reading, and singing.

The instruction in the Sunday School aims to inspire right conduct based upon the principles of the Bible.

The two student organizations—the Y. M. C. A. and the Y. W. C. A.—are factors of inestimable value in the development of Christian character.

The Vesper Services, which are held every Sunday evening, aim to develop the spiritual life of the students.

### STUDENT LIFE AND ACTIVITIES

Some play is interspersed with the work at State Normal. Athletics play an important part in the life of the school. The State Basketball Tournament for the southeastern section has been held here in the handsome gymnasium of the Newbold Training School. Tennis rivals basketball in popularity. Some time and attention are given, also, to football, baseball, and track. The boys have both a football and a basketball team. The girls have a basketball team.

The two sexes meet together in social gatherings frequently, under conditions that are wholesome, and with adequate supervision from the faculty social committee.

### ALUMNI ASSOCIATION

There is an active Alumni Association which co-operates heartily with the Administration in all efforts to advance the interest of the school.

#### OFFICERS

E. A. Armstrong, President.      Dorothy Murphy, Secretary.  
Robert Watson, Vice-President.      Eunice Sherman, Asst. Secretary.  
J. T. Saunders, Treasurer.

The raising of funds with which to erect a monument to the late Dr. E. E. Smith is the immediate worthy project which is consuming the time and energy of the Alumni. The Association is appealing to the citizens in general to contribute to the erection of this monument.

### THE TRAINING SCHOOL

**PURPOSE.** The Training School is the heart of the Normal School, because it is the laboratory of Educational Methods, Theories, and Practices. It serves the instructors and student-teachers as a center—

(1) For observing Methods, Illustrated Lessons, and Improved Plans in the teaching of the common school branches.

(2) For observing and getting acquainted with children—their traits, capacities, and possibilities.

(3) For developing skill, gaining insight and developing attitudes which are imperative and essential for progressive, beneficial teaching.

(4) For working out the latest psychological principles.

The training School gives unusual, exceptional training to the children in the grades, because of the superior type of teaching done by the high calibre of supervising teachers, under the stimulus and guidance of the best educational thought.

**WORK.** The course of study embraces the first seven grades. The course as outlined for the elementary schools of the State is the

basis of the work, but many adaptations and enrichments are introduced particularly in connection with the program of the classes in Education.

### EXTENSION SERVICE

State Normal School conducts extension centers in various cities for the further training of teachers in service. During the past year, extension classes were held at Fayetteville, Wilmington, Warsaw, Clinton, and Lillington.

### MARKING SYSTEM

A—Excellent.

B—Good

C—Fair

D—Poor

E—Failure

I—Incomplete

X—Absent for Examination

Dr.—Dropped

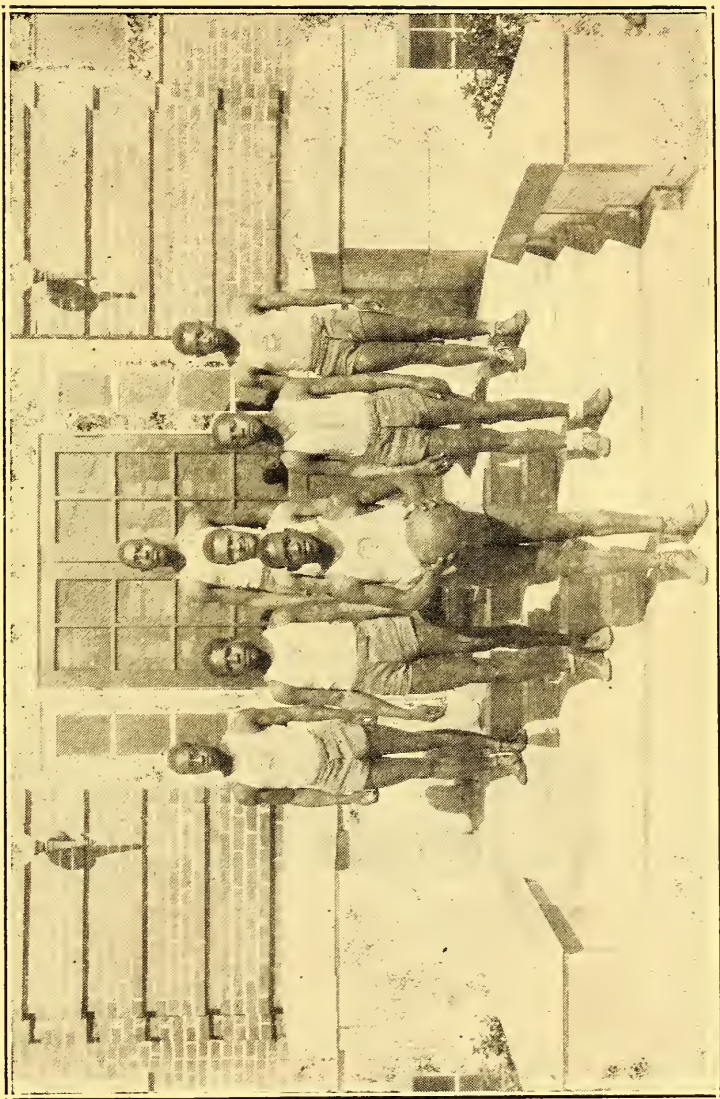

A failure in a subject can be removed only by re-taking the subject in class.

### SUMMER SCHOOL

In order to improve the teacher actively in service, the institution has conducted for many years a Summer School. The value of this school has been attested by the large numbers that attend each year.

In this school the teacher may get credit for two summer schools during one summer; and if she holds a State certificate and had previously graduated from a standard high school, may secure credits toward Normal School graduation.

The Summer School Bulletin, giving full information, will be mailed upon request.
